

Technical drawing of a mechanical part, likely a bracket or support, showing dimensions in millimeters. The drawing includes a top view and a side view.

Top View Dimensions:

- Overall width: 160
- Distance from left edge to center of first hole: 75
- Distance between centers of two holes: 10
- Distance from center of second hole to right edge: 75
- Distance from left edge to center of first hole (alternative measurement): 27,5
- Distance from center of first hole to center of second hole: 95
- Distance from center of second hole to right edge (alternative measurement): 27,5
- Distance from left edge to center of first hole (alternative measurement): 5
- Distance from center of first hole to center of second hole (alternative measurement): 5

Side View Dimensions:

- Overall height: 18
- Distance from left edge to center of first hole: 60,0
- Distance between centers of two holes: 40
- Distance from center of second hole to right edge: 60,0
- Distance from left edge to center of first hole (alternative measurement): 6
- Distance from center of first hole to center of second hole (alternative measurement): 6

View

The drawing shows a technical representation of a metal plate. The main view is a perspective view of a rectangular plate with a wavy, undulating profile along its length. The plate is secured with six hexagonal bolts, three on each side. A section view is provided in the top left corner, showing a cross-section of the plate. The section view includes the following dimensions: a total width of 160, a distance of 10 from the left edge to the first wavy section, a distance of 75 between the first and second wavy sections, a distance of 95 from the left edge to the third wavy section, a distance of 5 from the third wavy section to the right edge, a distance of 27,5 from the left edge to the center of the bolt hole, a distance of 6 from the center of the bolt hole to the right edge, a distance of 40 from the left edge to the first wavy section, a distance of 60,0 from the first wavy section to the center of the bolt hole, and a distance of 6 from the center of the bolt hole to the right edge. The section view also shows a hatched area representing the material of the plate.
